The Long Corruption of Congress – From the Federal Reserve to Gaza, Iran, and the Distraction Machine

The Crooks: A Century of Congressional Betrayal

The United States Congress did not become corrupt overnight. It was engineered into a vehicle for wealth extraction and foreign capture over more than a century.

Epoch	Congressional Action	Purpose / Effect
1913 – Federal Reserve Act	Congress created a private central bank with the power to issue currency, control interest rates, and manage the nation's credit.	The Fed is not a government agency; it is a cartel of private banks. Congress transferred sovereign monetary authority to private hands. The debt-based monetary system was born.
1930s-1960s – Social Security Act, Medicare Act	Congress created popular entitlement programs while structuring them to be funded by dedicated taxes—then began borrowing from those trust funds to pay for wars and tax cuts.	The groundwork for intergenerational theft was laid: Congress took from the people's accounts and spent on foreign adventures and donor-friendly tax policies.
1970s-1990s – Campaign Finance Deregulation	Congress systematically weakened limits on campaign contributions, opening the door to foreign-aligned money (AIPAC, defense contractors, corporate PACs).	By the 1990s, congressional elections were auctions. AIPAC emerged as a dominant force, buying hundreds of members with impunity.
2000-2025 – Endless War Authority	After 9/11, Congress passed the Authorization for Use of Military Force (AUMF), then never repealed it. It funded wars in Afghanistan, Iraq, and later in Yemen, Syria, and Gaza without declarations of war.	Congress abdicated its constitutional duty to declare war. It became a rubber stamp for executive wars—wars that served foreign interests (Israel, Saudi Arabia) and defense contractors.
2023-2025 – Gaza Genocide	Congress provided **$22.76 billion** in military aid to Israel during the Gaza genocide, including weapons used to kill over 50,000 children. It passed resolutions condemning "antisemitism" while funding the destruction of a population.	Congress did not investigate Israeli war crimes; it funded them. It did not condition aid; it accelerated it. The same members who cut SNAP and Medicaid voted for bombs to fall on Gaza.
2025-2026 – Iran War, OBBBA, and Title 32	Congress passed the One Big Beautiful Bill Act ($4.1 trillion debt, gutting SNAP/Medicaid/Medicare), funded the undeclared Iran war under Israeli pressure, and	Congress used its power of the purse to explode the debt, enrich donors, and cut American lifelines—all while funding foreign

Epoch	Congressional Action	Purpose / Effect
	prepared 23,500 Title 32 troops to suppress Americans.	wars and preparing military force against its own citizens.

The common thread: Congress has consistently used its constitutional authority to serve private financial interests, foreign lobbies, and its own re-election, while systematically dismantling American sovereignty and the social contract.

The Distraction: Gaza, Iran, "Terror" – The News Cycle as Weapon

Today, the news is saturated with three subjects:

- **Gaza** – endless coverage of the war, the casualties, the "humanitarian crisis."
- **Iran** – missile strikes, the "threat," the nuclear "danger."
- **Terror** – "Iran-backed militias," "terrorist groups," "threat to the homeland."

These are not coincidences. They are **manufactured focal points** designed to keep public attention on symptoms while the cause—the captured system—goes unexamined.

Subject	What You Are Told	What You Are Not Told
Gaza	"Horrific violence. We must do something. Congress condemns the killing."	Congress funded the bombs. Congress has the power to stop aid. It does not. The "concern" is theater.
Iran	"Iran is an existential threat. We must confront it."	Iran has not attacked another country offensively in over 300 years. The "imminent threat" was fabricated, as confirmed by Joseph Clay Kent and the IC's own assessment. Congress funded the war knowing the pretext was false.
Terror	"Iran-backed terrorists are attacking our allies. We must defend Israel."	"Terror" is a label applied to any group that resists Israeli occupation or U.S. military presence. Congress has used anti-terrorism laws to suppress dissent, surveil Americans (via ADL, Axon, Unit 8200), and justify endless war.

The purpose: Keep the public arguing about Gaza (should we send more aid or less?), about Iran (was it a threat or not?), about terrorism (who is a terrorist?)—while the **real conversation** (Congress is captured by a foreign lobby, the power of the purse is used to loot America, the federal government is preparing to use troops against its own citizens) is never held.

The Mechanism: Lateral Fire – Congress Blames Everyone Else

Congress has a single, reliable response to any question about its own corruption: **lateral fire**.

Who They Attack	What They Say	What They Hide
The President (Trump)	"He started the war. He wants the tax cuts. He is lawless."	Congress passed OBBBA. Congress funded the war. Congress has the power to stop both. It does not.
The DNI (Gabbard)	"She suppressed intelligence. She is incompetent."	Congress received the same intelligence (Superzar Pro archive) and held zero hearings.
The CIA Director (Ratcliffe)	"He lied about Iran."	Congress ignored the IC's own assessment and funded the war anyway.
The Attorney General (Bondi)	"She neutered FARA."	Congress oversees DOJ. It could compel enforcement. It does not.
The DHS Secretary (Noem)	"She mismanaged immigration."	Congress controls appropriations and refuses to reform the system, maximizing chaos for political gain.

Lateral fire is a tactic: aim all criticism outward, never inward. The public sees hearings, grilling, tough questions—and believes Congress is doing its job. In reality, Congress is protecting itself.

The Root: Irgunist Ideology, Syncretic Mythology, and the Captured Government

The reason Congress behaves this way is not because of isolated bad actors. It is because the institution itself has been captured by a foreign ideology rooted in **Irgunist doctrine**—the belief that force, infiltration, and subversion are legitimate tools to achieve control—cloaked in **syncretic mythology** (a narrative that merges ancient religious claims with modern political objectives).

Layer	Manifestation
Irgunist Doctrine	The same tactics used to bomb the King David Hotel and massacre Deir Yassin are now used to capture Congress: infiltration (Unit 8200, Axonius), subversion (AIPAC funding 349 members), blackmail (Mossad, Epstein network), and control (using the power of the purse to enforce Israeli policy).
Syncretic Mythology	The "Judeo-Christian" myth, the "chosen people" narrative, the conflation of Judaism with Zionism—all are used to create an ideological shield. Criticism of Israel is labeled antisemitism. Support for Israel is framed as a moral duty. Congress members who question this are destroyed (Levin, Newman, Bush, Bowman).
The Result	Congress is no longer a sovereign legislature. It is a transmission belt for the strategic objectives of the Irgunist-Israeli network, financed by AIPAC, enforced by Mossad blackmail, and operationalized through Unit 8200 technology.

The Golden Irrefutable

Congress has been corrupt for over a century—from the Federal Reserve Act of 1913, which handed monetary sovereignty to private bankers, to the present day, where 349 members are funded by a foreign lobby. It used its power of the purse to fund the Gaza genocide ($22.76 billion), to explode the debt with OBBBA ($4.1 trillion), to cut SNAP, Medicaid, and Medicare, and to prepare Title 32 troops to suppress Americans—all while funding an undeclared war with Iran under a false pretext, as confirmed by the Intelligence Community and Joseph Clay Kent.

To distract from this, Congress and its media allies flood the news cycle with Gaza, Iran, and "terror" stories, ensuring the public argues about symptoms while the cause—the captured system—remains untouched. When questioned, Congress deploys lateral fire: it attacks executive officials, blames the president, the DNI, the CIA director, anyone but itself.

The root is not political party, not "bad apples." The root is the Irgunist-Israeli capture of the U.S. government, enabled by syncretic mythology that shields a foreign power's influence from scrutiny. The evidence is the Superzar Pro archive. The proof is the $4.1 trillion debt bomb, the Gaza bombs, the Title 32 troops, and the 349 members of Congress on a foreign payroll.

They point at Gaza. They point at Iran. They point at terror. They will not point at themselves. The archive points at them.
